

TO-DO LIST APPLICATION

Using Python Tkinter

Prepared By:
Subasakthi

2. Abstract

A To-Do List Application is a GUI-based project developed using Python Tkinter. It helps users manage daily tasks by adding and deleting tasks through a simple graphical interface.

3. Objectives

- Manage tasks efficiently
- Learn GUI development
- Understand Tkinter widgets

4. Technologies Used

- Python
- Tkinter
- VS Code
- GitHub

5. Modules Used

- tkinter
- messagebox

6. Features

- Add Task
- Delete Task
- Warning Messages
- GUI Interface

8. Conclusion

This project demonstrates the basics of GUI development using Python Tkinter and helps users organize daily tasks effectively.
